## NEW invigorating LOCATION

Disney's Coronado Springs Resort  
2025 | May 25-30 | Orlando, Florida

# Course Catalog: [Link to Download](#)

Great veterinary professionals  
**never** stop learning.

NAVC SkillShop gives you the tools you need to expand your talents with hands-on collaborative and inclusive learning for all!

Grow your talents. Grow your practice.

#### **Intimate** setting

Enjoy plenty of one-on-one interaction with your world renowned course leaders and fellow classmates; you'll work with the best to achieve expertise.

#### **Inspiring** experiences

Gain practical, real-world instruction to perform advanced procedures you can quickly put into practice for a smart return on your investment.

#### **Inclusive** opportunity

We welcome all members of the veterinary team to join us for in-depth training so you can master valuable skills to enhance your career.

Explore our course options for 2025 and sign up at [NAVC.com/SkillShop](https://NAVC.com/SkillShop).

#### **NAVC SkillShop is an All-Inclusive Event**

Your registration includes:

**Registration** to the course or courses of your choice—this year you can mix and match to build your schedule!

**Lodging** in beautiful and comfortable accommodations in a 4-star Disney resort.

**Meals** including breakfast, lunch and coffee breaks.\*

**Complimentary Course Notes** in print (by request only when you register for the event) and digital versions. Ultrasound courses will receive digital only.

**16-32 CE credit hours**, depending on course selection

**Special Expo Hall access** to see the latest tools and get exclusive offers, including a can't-miss Demo Day.

**A free registration to VMX 2026** when you redeem by October 2025.

**A FREE individual VetFolio annual subscription**

**Free access to NAVC's print + digital publications.\*\***

\* Please reference your course schedules for full list of meals provided.  
\*\*Print subscriptions can only be mailed within the continental US.

# Demo Theater Sessions

- **Tuesday + Wednesday starting at 6 PM (4 Spots Available each day)**
  - Inclusion in SkillShop Grid
  - Demo is 20 minutes with a 5 minute Q+A
  - Main Ballroom Stage
  - Learning theater style set up (similar to VMX)
  - Casual seating: cubes, armchairs, bistro high top tables + chairs – in front of the stage area (set for 50 people).
- Company can provide handouts, promo for attending the session, F&B at additional cost
- Open to all SkillShop attendees as well as local Florida-based veterinary professionals who will be invited to visit exhibitors and attend the demos in the ballroom each evening

**Sponsorship: \$1,500 per spot**

# Lanyard Bundle with Push Notification

**Due: March 28th**

These are a must have! Every attendee will be wearing your logo during their time at VMX.

**Sponsorship: \$2,500**

**Sponsored Push Notifications allow you to promote target attendees onsite with a timely message.**

**Boehringer Ingelheim has great CE offerings for VMX!**

Just now

Starting Jan. 13 – Jan. 17 don't miss any of our exciting talks & CE offerings! See our full schedule here <https://bit.ly/vmx-symposium!>

**SPONSORSHIP OPTIONS**

# Postal Mailing List: Pre-Event Mailer

Reach registrants before they arrive in Orlando to inform them of your event activities.

- List of attendees postal mailing addresses will be provided
- The NAVC needs to approve the mailer prior to it being produced.
- This is a one-time use only list.
- List contains first name, last name, clinic name (if provided), postal address and registration type.
- List does not include email addresses or phone numbers.
- List is provided as a .xls file.
- Sponsor is responsible for printing and mailing of their piece.

**Sponsorship: \$500**

# Daily Email Exclusive

NAVC SkillShop attendees receive an email with all the must-know details and important happenings to look forward to..

Promote booth activities, show specials or sponsored education. You provide the creative, and we will give you prime real estate in our daily email to reach all registered attendees.

- Large Image – 600x350

### Course Leaders

Erin Porter, DVM, DACVR, DACVR-EDI

Dr. Erin Porter is a 2007 graduate of the University of Florida, College of Veterinary Medicine. Immediately following veterinary school, she practiced as an ambulatory equine practitioner for 2 years, then returned to the University of Florida to complete a specialized internship focused on equine lameness and large animal internal medicine.

and small animal diagnostic imaging. She subsequently completed a residency in Diagnostic Imaging at the University of Florida and became board certified by the American College of Veterinary Radiology in 2013. She became a faculty Radiologist at the University of Florida, Veterinary Hospitals in 2013 and was the Service Chief of Diagnostic Imaging from 2017–2022. In 2021, she became board certified as an Equine Diagnostic Imaging specialist within the American College of Veterinary Radiology. She currently provides Diagnostic Imaging service to the University of Florida Veterinary Hospitals at the World Equestrian Center in Ocala, Community Care Veterinary Specialists in Gainesville, FL and teleradiology services at Vet-CT. Her imaging interests include equine musculoskeletal imaging and small animal ultrasound. In her spare time, she enjoys jogging, yoga and spending time with her husband and two children.

Martha Moon Larson, DVM, MS, DACVR

Dr. Larson is a professor in the Department of Small Animal Clinical Sciences at Virginia-Maryland College of Veterinary Medicine at the Virginia Polytechnic and State University in Blacksburg, Virginia. She earned her veterinary degree from Ohio State University in 1981, completed an internship in surgery at Ohio State University, and a residency in radiology at Ohio State University. She also holds a master's degree from Ohio State University in 1986 and is a diplomate in ACVR. Dr. Moon Larson holds a special interest in imaging the pancreas and hepatobiliary system.

### Additional Instructors

Clifford "Kip" Berry, DVM, DACVR  
Robert Cole, DVM, DACVR  
Mike Edwards, DVM, MS, PhD  
Robson Giglio, DVM, PhD, DACVR

## BASIC SMALL ANIMAL ULTRASOUND

### 32 CE CREDIT HOURS

Check-in: May 25 • Check-out: May 30

PLEASE NOTE: Due to popular demand, we're offering two general courses and one intermediate course running concurrently. When you register, please indicate your preferred course:

- Group 1
- Group 2

### Course Description

This is an extensive, hands-on course covering everything from basic ultrasound concepts and principals of image manipulation to fine tuning scanning techniques for smaller parts of the small animal abdomen such as adrenal glands and lymph nodes. Participants will go through a series of lectures and guided workshops to become familiar with the normal appearance of all abdominal organs as well as common pathology and how to recognize it sonographically.

### Learning Objectives

After completing this program, you will have:

1. Become familiar with normal sonographic appearance of the small animal abdominal anatomy.
2. Become familiar with the sonographic appearance of common pathologic findings in the small animal abdomen.
3. Learn the basics of ultrasound probe selection and orientation and image manipulation, and work on fine tuning image optimization.
4. Develop a systematic approach to complete abdominal ultrasound.

### Recommended Supplemental Reading

1. Mattoon JM, Sellon R, Berry CR (eds). *Small Animal Diagnostic Ultrasound*, 4th ed. Elsevier, 2020.

2. Penninck D and d'Anjou M. *Atlas of Small Animal Ultrasound*, 2nd ed. Wiley Blackwell, 2015.

Course notes for Small Animal Ultrasound will only be available in digital format.

## INTERMEDIATE SMALL ANIMAL ULTRASOUND

### 24 CE CREDIT HOURS

Check-in: May 24 Check-out: May 28

### Course Description

This course provides a review of skills learned in basic abdominal ultrasound courses and provides a more in depth training on smaller parts including adrenal glands, lymph nodes and vasculature. Workshops will incorporate evaluation of smaller parts in both the cat and dog. Lectures will cover advanced abdominal imaging including small parts and Doppler imaging in more extensive detail and basic thoracic ultrasound evaluation will be discussed. Extensive case reviews will cover abnormalities of smaller parts.

Upon completion of this course, you will need to pass the certification exam on vetfolio.com. The details will be emailed to you once the course concludes.

**PLEASE NOTE: You must have previously attended an NAVC Institute Small Animal Abdominal Ultrasound course as a prerequisite to attend this intermediate course. At the end of the course, attendees will complete a quiz to earn a certificate.**

### Learning Objectives

- Have a more thorough understanding complex and smaller anatomical parts in the abdomen.
- Provide more thorough understanding of ultrasound probe manipulation and orientation
- Build upon ultrasound image manipulation and modification.
- Introduce basic thoracic ultrasound

### Who Should Attend?

Veterinarians who have completed NAVC Institute General Abdominal Ultrasound course at least one time and feel moderately comfortable with basic abdominal imaging but want to expand on these skills and gain proficiency in more advanced ultrasound techniques.

### Recommended Supplemental Reading

1. Mattoon JM, Sellon R, Berry CR (eds). *Small Animal Diagnostic Ultrasound*, 4th ed. Elsevier, 2020.
2. Penninck D and d'Anjou M. *Atlas of Small Animal Ultrasound*, 2nd ed. Wiley Blackwell, 2015.
